

## Settima sonata

Pirro Albergati

Edited by Thomas D. Dunn

**Allegro, e spicco**

Violino I  
Violino II  
Violoncello  
Cimbalo

© Thomas D. Dunn, 2017

[#] [#] 6 [6] 6 6

Detailed description: This block contains the first system of a musical score for four instruments: Violino I, Violino II, Violoncello, and Cimbalo. The music is in G major (one sharp) and common time. The Violino I part features a melodic line with eighth and sixteenth notes. The Violino II part provides harmonic support with a similar rhythmic pattern. The Violoncello and Cimbalo parts play a steady eighth-note accompaniment. The score includes a copyright notice for Thomas D. Dunn, 2017, and performance markings such as fingering numbers (6, 6, 6) and breath marks (#).

Detailed description: This block contains the second system of the musical score for the same four instruments. The Violino I part continues its melodic line, marked with a '4' above the first measure. The Violino II part continues its harmonic accompaniment. The Violoncello and Cimbalo parts continue their eighth-note accompaniment. The score includes performance markings such as fingering numbers (#6, 5, 5) and breath marks (#).

The image displays a musical score for the Pletro Armonico, Opera quinta (1687) by P. Albergati, covering measures 34 through 41. The score is arranged in four systems, each containing four staves: Violin I (VI. I), Violin II (VI. II), Violoncello (Vc.), and Cimbalo (Cimb.). The key signature is two sharps (F# and C#), and the time signature is 3/4. The score features several triplet markings (indicated by a '3' above the notes) and dynamic markings such as [f] and [p]. The Cimbalo part includes fingering numbers (5, 4, #3) and dynamic markings ([#]). The score concludes with a double bar line and repeat signs.

The image displays a musical score for measures 87-91 of the seventh sonata from the *Pletro Armonico, Opera quinta* by P. Albergati. The score is arranged in four staves: VI. I (Violin I), VI. II (Violin II), Vc. (Violoncello), and Cimb. (Cimbalo). The key signature is one sharp (F#) and the time signature is 3/4. Measures 87-91 feature intricate rhythmic patterns, including triplets and sixteenth-note runs. The Cimb. part includes figured bass notation: [7] 4 #3, [#6] #6, [#] [#6], and [#] 3. The score concludes with a repeat sign and a fermata over the final notes of each staff.

## EDITORIAL REPORT

### Sources

*Pletro armonico composto di dieci sonate da camera à due violini, e basso con violoncello obbligato. Opera quinta del conte Pirro Albergati. In Bologna per Giacomo Monti. 1687.*

4 partbooks: Violino Primo, Violino Secondo, Violoncello, Cimbalo.

### Editorial Remarks

In contrast with Opus 2, the sonatas in Opus 5 are specified as being *da camera*. This is supported by the specification of *Cimbalo* rather than *Organo* as the continuo instrument, and, also in contrast with Opus 2, the violoncello and cimbalo partbooks for Opus 5 are not identical. There are no figures in the former and the instrument sometimes remains silent when the continuo is purely accompanimental. Thus it forms something of a string trio with the two violins.

### Performance Notes (Thomas D. Dunn and Jeffrey Kurtzman)

The sonatas of Opus 5 employ a greater number of tempo indications than those in Opus 2. The indications "Adagio, e spicco" and "Largo, e spicco" – "spicco" meaning "detached" or "cut short" - preface some of the most striking and unusual passages in the collection, passages in which quarter notes are separated by dramatic silences. In the ninth and tenth sonatas fermatas also serve to emphasize and articulate important rhetorical points. The use of this sign at the end of each piece may have originally indicated an extended silence before the next piece of music. In Opus 5 Albergati, or his printer, employs double dots before and after double bars, which in modern notation indicates forward and backward repeats. This could also apply to this music as well if one follows Lorenzo Penna's description of the sign: "Il Ritornello fà da capo à cantare di nuovo, ò al (repeat sign) antecedente."<sup>2</sup>

Continuo figures in later seventeenth century works are much more plentiful than in works from earlier decades; Albergati, however, is somewhat inconsistent in his instructions to the

<sup>1</sup> Incomplete manuscript copy, written by Fr. X. Haberl and dated February 3, 1864.

<sup>2</sup> Lorenzo Penna, *Li primi albori musicali* (Bologna: Giacomo Monti, 1679), 30-1.

continuo player(s). In some sections of the Opus 5 sonatas there is almost an overabundance of figures, but in other places important figures are missing and must be supplied from the context.<sup>3</sup>

Figures in the continuo are most often indicators of the harmony to be played; however, especially at cadences, a figure may simply indicate the movement of an upper part for the information of the accompanist (who would be playing from a single part-book without visual reference to the other parts). Cadences will quite regularly involve  $\frac{5}{4}$ -3 and 4-3 suspensions; the resolution of all forms of 4-3 suspensions is better left to the upper part and not doubled by the continuo. 7-6 suspensions typically result from the movement of the bass under a sustained note in an upper voice and should not include the fifth in the harmony. In minor mode pieces, Albergati often omits figures indicating the major mode at final cadences. Gasparini instructs that the resolved third of a cadence is always major. This rule would have applied not only to final cadences, but most cadences delineating distinct sections of a composition, and even to interior cadences, depending on the context and how the parts continue. In fact, Albergati clearly assumes that interior cadences in minor tonalities will be major, since those interior cadences he specifically wants to be minor, he indicates with the necessary continuo figuration.

The violin parts in these sonatas often move in ranges well above the basso continuo, and the filling out of the harmony should fall in between these extremes. The continuo may double the octave and fifth of its harmony, but not the third or dissonances and should not duplicate the melody of the violins unless explicitly indicated by the notation. Gasparini recommends playing as many consonances as possible, which may include doubling the principal harmonic notes of the upper parts, but how many consonances will depend on the judgment of the continuo player and the register of the violins. In those passages where the continuo bass is in the upper part of the bass clef and one or both of the violins are in a low register, the continuo should still not rise above the soloist if at all possible.

In rapidly moving basses, it is not appropriate to change harmonies on every note, but rather according to the larger harmonic rhythm. Bass notes on the third and leading tone of the tonality are harmonized by first inversion triads, as are bass notes raised by an accidental sharp. In the organ the rule against consecutive fifths and octaves need not be strictly observed when the accompaniment doubles consonances in the left hand, since they can be considered the crossing of inner parts.

---

<sup>3</sup> Sources regarding continuo practice in Albergati's sonatas that performers may wish to consult are Francesco Gasparini, *L'armonico pratico al cimbalo* of 1708 and Johann David Heinichen, *Der Generalbass in der Composition*, 1728. Gasparini's treatise is available in an English translation by Frank S. Stillings *The Practical Harmonist at the Harpsichord* (New Haven: Yale School of Music, 1963); a detailed study in English of Heinichen's treatise is George J. Buelow, *Thorough-Bass Accompaniment according to Johann David Heinichen* (Berkeley and Los Angeles, 1966). Significant excerpts from both treatises are found in F.T. Arnold, *The Art of Accompaniment from a Thorough-Bass*, vol. 1 (New York: Dover Publications, 1965). Very useful for both theorbists and keyboard players is Nigel North, *Continuo Playing on the Lute, Archlute, and Theorbo* (Bloomington: Indiana University Press, 1987). See also, especially for general stylistic and aesthetic considerations, Peter Croton, *Performing baroque music on the lute and theorbo* (California: San Bernardino, 2017), 195-211.
