Eighty-seven arrangements entered by two or three unidentified French hands (Hand A, A', and B). Hands A and A' (which could be same as Hand A) are competent. Hand B is the same as Hand I of *Parville*, Hand A of *LaBarre-6*, and Hand A of *LaBarre-11*.

Menetou is not only the largest source of keyboard arrangements of Lully, but is also unique in that the pieces are by and large ordered in chronological sequence. The manuscript's connection with Françoise-Charlotte de Senneterre de Mennetoud, daughter of Henry-François, Duc de La Ferté (1657–1703) and Marie-Gabrielle-Angélique de La Motte (1654–1726), through the six “airs sérieux de mademoiselle de menetou” (fols. 48v–52r) suggests that the Lully pieces might have originated as a suitable repertory for the growing number of aristocratic female harpsichordists, of which *Menetou* is a fine example. Alongside the Lully transcriptions are original harpsichord pieces by Lebègue and D'Anglebert, vocal extracts from Lully's operas, and airs by Michel Lambert and Mademoiselle de Menetou.

Performance Notes

In the seventeenth century, the notation is under-prescriptive by modern standard and some elements of the performance may only be partially indicated or not indicated at all. Generally speaking, the performer has the discretion to supply in performance much that is not indicated in the source, such as by adding ornaments as well as melodic and rhythmic fillers, by spreading chords in a variety of ways, by embellishing the cadences, and sometimes even by enriching the texture with points of imitation. The modern performer can take lessons from D'Anglebert, who re-edited a selection of his autograph pieces for publication in 1689.¹ The performance attitude and elusive nature of the seventeenth-century French repertory has been exhaustively discussed by David Fuller, Ronald Broude, Bruce Gustafson, and others.²

In “3” time, eighth notes in conjunct motion (mm. 4, 18, etc.) should be rendered long and short successively as if notated in dotted values. Further advice on the rhythmic convention of *notes inégales* and other performance practice issues can be found in the “Introduction”.
