Thirty-three Lully pieces entered by Charles Babel (ca. 1634–1716) whose hand is neat and consistent. Same hand as that in *Tenbury*.

The Lully pieces are sequenced into Babel's compiled "suittes," a term evidently taken from Dieupart's *Six Suites de clavessin* (Amsterdam, 1701), from which twenty-three pieces were copied into *Babell*. Each key group is carefully designated "suite" with a number. Thirteen (out of 29) of the suites contain Lully arrangements, and seven use the overture as an opening movement (nos. 7, 15, 17, 21, 23, 26, and 27). On the basis of concordances, it appears that many of the arrangements in *Babell* also circulated in central Parisian sources. Gustafson brings up the possibility that Babel, rather than making his own arrangements, could have assembled his Lully arrangements from sources that also contain the remainder of his Parisian repertory.

Performance Notes

In the seventeenth century, the notation is under-prescriptive by modern standard and some elements of the performance may only be partially indicated or not indicated at all. Generally speaking, the performer has the discretion to supply in performance much that is not indicated in the source, such as by adding ornaments as well as melodic and rhythmic fillers, by spreading chords in a variety of ways, by embellishing the cadences, and sometimes even by enriching the texture with points of imitation. The modern performer can take lessons from D'Anglebert, who re-edited a selection of his autograph pieces for publication in 1689.¹ The performance attitude and elusive nature of the seventeenth-century French repertory has been exhaustively discussed by David Fuller, Ronald Broude, Bruce Gustafson, and

others.²

The player can refer to the table below for guidance on the interpretation of ornament symbols commonly found in manuscript sources.

Tremblement *Pincé*

Port de voix

Cadence *Coulé* *Harpegement*

The image displays three sets of musical notation examples for different ornaments. The first set, labeled 'Tremblement' and 'Pincé', shows a treble and bass staff with various note values and ornament symbols (trills, mordents, etc.) above them. The second set, labeled 'Port de voix', shows a treble and bass staff with notes and slurs indicating a breath-like effect. The third set, labeled 'Cadence', 'Coulé', and 'Harpegement', shows a treble and bass staff with notes and slurs indicating a cadence, a coulé (trill), and a harpegement (arpeggio) respectively.

In “2” time, eighth notes in conjunct motion (mm. 1–5, 7, etc.) should be rendered long and short successively as if notated in dotted values. Further advice on the rhythmic convention of *notes inégales* and other performance practice issues can be found in the “Introduction”.
